## **Hirease, Inc. Announces Addition of NCCRIM**

Instant real-time information on North Carolina criminal records

**Southern Pines, NC-February 3, 2009:** Paul Dent, Chief Executive Officer and Founder of Hirease, Inc., a full-service employment screening company, announces the addition of NCCRIM. Updated nightly, NCCRIM provides instant, online access to the most current information available from the NC Administrative Office of the Courts. NCCRIM translates the “green screen” 2.5 million criminal cases processed each year into a clear, user-friendly system.

Industry best practice for background screening requires researchers to personally visit each county of residence to determine whether criminal records exist. By updating nightly with the North Carolina Criminal Information System, NCCRIM provides the latest information available regarding arrests, tickets, pending cases, convictions, dismissals and acquittals for North Carolina criminal cases. Information is included for all 100 North Carolina counties, eliminating the need to search each county individually. Single search, package and unlimited search options are available as well as an employee monitoring service. Employee monitoring provides email notifications when a potential match is received for an individual from the monitored list. Registration for NCCRIM services is available online at [www.nccrim.com](http://www.nccrim.com).

The leading small to mid-market pre-employment screening company, Hirease, Inc., takes a comprehensive approach to helping companies make smarter hiring decisions faster. With an array of employment screening, drug testing and compliance services available, Hirease provides reliable, accurate and timely applicant information. In addition to being a founding member of the National Association of Professional Background Screeners, Hirease is also setting the standard for client relations by following the Platinum Rule, which is the practice of treating others how they want to be treated. More and more companies every day are discovering that Hirease is, indeed, a Better Way to Better People. To find out more about Hirease, visit [www.hirease.com](http://www.hirease.com).
